

Appendix FW.2

FEED TROUGH SPACE ALLOWANCES

Feed trough space allowances must be appropriate to the size and weight of the livestock – and to the feeding system. Outlined below are the recommended minimum feed trough space allowances for cattle and sheep.

Trough Space - Cattle (cm per head)

Weight (kg)	Ration fed	Ad-lib / self feed
200-299	40	15
300-399	50	12
400-499	55	19
500-599	60	24
600-699	67	28
700-799	70	32
800 and over	75	32

Trough Space - Sheep (cm per head)

	Ration fed concentrates	Forages fed ad-lib
Store/Finishing Lamb & Ewe Hoggs	30	10-15 cm
Ewe - Small	45	10-15 cm
Horned	45	10-15 cm
Medium	45	10-15 cm
Large	50	10-15 cm
