RED TRACTOR STANDARDS REVIEW

RED TRACTOR STANDARDS REVIEW

Consultation analysis

Proposed next steps

- Proceed as per consultation
- Proceed with amendments
- **Remove**
- **Discuss at TAC**

TAC meetings

Sector Board sign-off

CHANGES TO STRUCTURE

RED TRACTOR VERSION 5

FORMAT

- Middle column split into individual audit points
 - No real change for members
 - More granular data for RT
- Coding not always consecutive
- Guidance boxes added

Documents and Procedures (DP)

STANDARDS	HOW YOU WILL BE MEASURED	
Aim: Plans and procedures in place to ensure safe and legal food production		
DP.1 Key The farm, as a whole, must present an acceptable and tidy appearance to the general public. The site management must not present a food safety, animal welfare or environmental risk (Upgraded)	<ul style="list-style-type: none"> ■ DP.1.a The external areas around buildings and farm entrances are kept clear of rubbish, non-essential equipment, and other debris ■ DP.1.b Loose wire, net and silage wrap, scrap machinery, scrap metal and disused tyres are managed 	
DP.1.1 A farm map must be present and areas of specific risk are identified	<ul style="list-style-type: none"> ■ DP.1.1.a Farm map shows where applicable: <ul style="list-style-type: none"> – all buildings – all fields, including area (hectares/acres) – watercourses including ditches and ponds – boreholes, springs and wells, including any one neighbouring land within 50m of the boundary – any areas of high pollution risk 	(R) ■ Farm map
GUIDANCE One or more maps may be used and this may be held as a hard copy or as an electronic document		
DP.2 A documented plan for the effective management of serious incidents and potential emergency situations that threaten the welfare of livestock, food safety or the environment must be in place and known to those involved in farm tasks (Revised)	<ul style="list-style-type: none"> ■ DP.2.a You have considered the risks to your farm and documented the actions to be taken in the event of: <ul style="list-style-type: none"> – interruptions to pig movements, e.g. suspension or withdrawal from the scheme – feed and/or water supply or equipment failing – fire – power cuts – disease outbreaks which have the potential to affect other farms/ the general public – activist activity – pollution incident, e.g. slurry spillages or leaks – other site-specific risks (where applicable) ■ DP.2.b Up-to-date relevant contact details are displayed (including out of hours phone numbers) e.g. vet, electricity supplier, Environment Agency hotline, feed and water supplier ■ DP.2.c Plan is accessible and known to those involved with tasks on the farm 	(R) ■ Contingency/ Emergency Plan
DP.3 Systems must be in place for recording, investigating and resolution of any complaints that are relevant to the requirements of the Red Tractor Standards	<ul style="list-style-type: none"> ■ DP.3.a System includes recording the: <ul style="list-style-type: none"> – complaint – investigation result – action taken to prevent the issue happening again 	(R) ■ Complaints record
WHERE TO FIND HELP <ul style="list-style-type: none"> ■ AHDB contingency planning for pig keepers: https://ahdb.org.uk/knowledge-library/contingency-planning-for-pig-keepers ■ Government guidance on farm fires and protecting farm animal welfare: https://www.gov.uk/government/publications/farm-fires-protecting-farm-animal-welfare ■ NPA advice on notifiable disease – movement controls, culling and cleaning: http://www.npa-uk.org.uk/hres/Notifiable%20disease%20outbreak%20plan 		

RED TRACTOR VERSION 5

NEW FRESH PRODUCE STRUCTURE

- Crop Protocols played a key role in the past
- Feedback demonstrates the need for a fresh approach
- Consultation showed support for alternative model proposed
- Further modules may follow

Crop Production

11 sections, applicable to all

Operational Area

5 sections, applicable where relevant

Supplementary Modules

To meet specific needs

RED TRACTOR VERSION 5

NEW CROP SCOPE

- Certified crops previously connected to Crop Protocols
- New approach references CRD **Crop Definitions List**
- Clearer scope of certification, limited change in many cases

RISK BASED APPROACH TO FOOD SAFETY

RED TRACTOR VERSION 5

RISK ASSESSMENT SECTION

- Review of Risk Assessment
- Modified approach to preventative actions
- Strengthened and upgraded Site Risk Assessment

You said, we listened...

- Proposed **certified** training requirement for risk assessment lead
- Becomes best practice guidance

RED TRACTOR VERSION 5

STRENGTHENING RISK MANAGEMENT

- Daily start-up checks for harvesting
- Post-Harvest Washing section
- Protected Cropping – new cropping systems (eg Vertical Farms)

You said, we listened...

- Return to Work interviews proposed
- Wording modified for clarity

RESPONSIBLE USE OF PPPs

RED TRACTOR VERSION 5

PPP MANAGEMENT CHANGES

- Strengthened PPP storage and handling requirements
- Minimum monthly PPP stock checks
- Linking PPP deliveries to supplier to ensure traceability of inputs

- Records for introduction of biological controls
- Store treatment controls in a post-CIPC world

TESTING REQUIREMENTS

RED TRACTOR VERSION 5

CHANGES TO TESTING REQUIREMENTS

- Strengthened and clearer approach to residue testing
- Laboratory accreditation recommendations upgraded to full standards
- Minor clarifications to water testing requirements for clarity

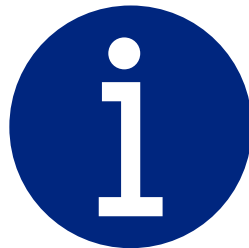

RED TRACTOR VERSION 5 STANDARDS

WHAT NEXT?
